

Thank you for choosing *5 By 5 Home Inspection, LLC*.

I will make every effort to inspect all of the components of your home. To help facilitate a thorough home inspection and prevent a possible re-inspection of any component, which could incur additional costs, please make sure to have your realtor inform all parties involved in the sale that components required of a home inspection, particularly the **main electrical panel, the attic, and the foundation**, needs to be accessible and visible, within reason, for a proper and timely inspection.

Your cooperation is greatly appreciated.
